

## Becker Avionics Awarded STC For Piaggio Aerospace P.180 Series Aircraft

P.180 Avanti EVO

AMU6500 audio panel

Miramar (FL), USA, 2<sup>nd</sup> of October 2020

Digital audio innovator, Becker Avionics, is proud to announce that we have been awarded a Part 23 Supplemental Type Certificate (STC) for the installation of the AMU6500 Audio Panel. The STC covers the Piaggio Aerospace P.180 Series aircraft (Avanti II and Avanti EVO).

This STC was designed with simplicity and ease of installation in mind. The whole modification can be performed quickly and during a planned maintenance event. The obsolete Baker Electronics M1035/M1045 audio panels are removed from the instrument panel. A new audio panel mounting bracket and a small harness adapter, the new AMU is installed. When purchasing the STC as a kit, it is delivered with all required components to include:

- 2 x AMU6500 Digital Audio Panels
- 2 x Adapter Harnesses
- 2 x Audio Panel Mounting Bracket
- 1 x Technical Data Package
- 1 x Right to Use Letter/Letter of Authorization

This STC was made possible with the collaboration of Intercontinental Jet Services Corp. (IJSC) based in Tulsa, OK. IJSC is an authorized Piaggio Service Center and the only authorized sales channel for this STC. Joe Hensley, Avionics Manager of Intercontinental Jet Services Corp. stated, "This STC will allow owners and operators of the Avanti to reduce costly repairs to their aging audio systems while incorporating the newest technology."

"The Becker AMU6500 is designed as a modern direct replacement to a variety of audio panels that are experiencing obsolescence and just aren't economically repairable" said David Oglesbee, Director of Sales and Marketing of Becker Avionics International. "We are very excited by the capabilities of this audio panel and the eager acceptance we are seeing from the market place."

About

**Intercontinental Jet Service Corp** is a Factory Owned & Authorized Mitsubishi Service Center, an Authorized Piaggio Service Center, and one of the world's largest Honeywell Authorized TPE331 Major Service Centers.
